Team ID: PNT2022TMIDxxxxxx

Project Name: Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Maximum Marks: 4 Marks

User Persona Target: IT Employee / Procurement Manager / IT Admin

1. What does he/she THINK AND FEEL?

- **Preoccupations:** "Manual laptop order processing takes too long."
- **Worries:** "Manual tasks will be misassigned, leading to delay in new employee onboarding."
- **Aspirations:** Wants a fully automated, one-click order approval and fulfillment workflow in ServiceNow.

2. What does he/she HEAR?

- **From Manager:** "We need faster turnaround times for hardware procurement requests."

- **From Employees:** "Where is my laptop? It has been pending approval and task creation for days."
- **From IT Support:** "Manually creating Catalog Tasks for every approved laptop order is repetitive and error-prone."

3. What does he/she SEE?

- Service Catalog requests sitting in "Awaiting Approval" status for extended periods.
- Unassigned or incorrectly assigned hardware fulfillment tasks.
- Modern ServiceNow instances leveraging Flow Designer for end-to-end automation.

4. What does he/she SAY AND DO?

- **Attitude:** Proactive about modernizing IT operations and reducing manual effort.
- **Behavior:** Regularly submits catalog requests for laptops and tracks progress via the Service Portal.

- **Actions:** Manually forwards approval emails or manually updates task short descriptions when workflows stall.

Pain & Gain

Pain PDF	Gain PDF
• Delays caused by manual approval and task creation workflows.	

- Human errors in updating task short descriptions or routing.
- Lack of visibility on order status for end-users. | • **Instant Flow Execution:** Automatic task creation immediately post-approval.
- **Accurate Routing:** Catalog Tasks automatically assigned to the Hardware group.
- **Improved Productivity:** Faster laptop delivery and zero manual overhead. |
