

# User Acceptance Testing (UAT) Report

**Document Title:** UAT Execution & Report Submission

**Date:** 02 October 2026

**Team ID:** PNT2022TMIDXXXXXX

**Project Name:** Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

**Product Name:** Standard Laptop Request & Automated Fulfillment Engine

**Maximum Marks:** 4 Marks

## 1. Purpose of Document

The purpose of this document is to outline the test coverage, execution metrics, and open issue status for the **Standard Laptop Request & Automated Fulfillment Engine** project at the time of release to User Acceptance Testing (UAT).

## 2. Defect Analysis

This table summarizes the total number of resolved or closed defects categorized by severity level and resolution status:

| Resolution        | Severity 1<br>(Critical) | Severity 2<br>(High) | Severity 3<br>(Medium) | Severity 4<br>(Low) | Subtotal |
|-------------------|--------------------------|----------------------|------------------------|---------------------|----------|
| By Design         | 4                        | 10                   | 2                      | 3                   | 20       |
| Duplicate         | 0                        | 3                    | 0                      | 1                   | 4        |
| External          | 0                        | 3                    | 2                      | 1                   | 6        |
| Fixed             | 4                        | 2                    | 11                     | 20                  | 37       |
| Not<br>Reproduced | 0                        | 0                    | 1                      | 0                   | 1        |
| Skipped           | 0                        | 0                    | 1                      | 1                   | 2        |
| Won't Fix         | 0                        | 5                    | 2                      | 1                   | 8        |
| Totals            | 24                       | 14                   | 26                     | 13                  | 77       |

### 3. Test Case Analysis

This section highlights the distribution of executed test cases across core project components and workflows:

| Section                                    | Total Cases | Not Tested | Fail | Pass |
|--------------------------------------------|-------------|------------|------|------|
| Print Engine                               | 7           | 0          | 0    | 7    |
| Client Application / User Interface        | 51          | 0          | 0    | 51   |
| Security & Access Control                  | 2           | 0          | 0    | 2    |
| Outsource Shipping & Logistics Integration | 3           | 0          | 0    | 3    |
| Exception Reporting & Error Handling       | 9           | 0          | 0    | 9    |
| Final Report Output                        | 4           | 0          | 0    | 4    |
| Version Control & Deployment Verification  | 2           | 0          | 0    | 2    |
| Totals                                     | 78          | 0          | 0    | 78   |
